

United States Senate

April 28, 2019

Dear Friends,

I regret that I cannot be with you today for the Nashua River Wild and Scenic River Study Committee Celebration.

New Hampshire's beautiful natural resources are an important part of who we are as Granite Staters, and our waterways in particular are critical to the well-being of our families, vibrant communities, and a thriving economy.

Today we celebrate the designation of sections of the Nashua, Squannacook, and Nissitissit Rivers as part of the National Wild and Scenic System. Thanks to the work of dedicated community leaders, the Nashua River has undergone a remarkable transformation into the pristine river we know today. As your Senator, I was proud to join a number of my colleagues in introducing the bipartisan legislation that was signed into law earlier this year that added these rivers to the Wild and Scenic System and will help continue to protect this watershed for generations to come.

Thank you to all of those who helped make this designation a reality. I look forward to continuing to work with all of you to preserve our natural resources and ensure a cleaner environment for our communities and for generations to come.

With every good wish,

A handwritten signature in blue ink that reads "Maggie Hassan". The signature is fluid and cursive, with a long horizontal stroke at the end.

Margaret Wood Hassan
United States Senator
